

The Value of HIE to Specialty Care Providers

What is HSX?

HealthShare Exchange of Southeastern Pennsylvania, Inc. (HSX) is a 501(c)(3) health information exchange (HIE) serving the greater Philadelphia region.

- The HSX Mission is to provide secure access to health information that enables preventive and cost effective care; improves the quality of care; and facilitates the transitions of care.
- The HSX Vision is to build a trusted community of healthcare stakeholders collaborating to deliver better healthcare to patients.

HSX current membership includes acute care hospitals, health plans, long-term care facilities, behavioral health organizations, accountable care organizations, clinically integrated networks, independent ambulatory practices and federally qualified health centers in the five-county area.

Services Offered to Specialty Care Practices

DIRECT SECURE MESSAGING (Direct)

- Send and receive clinical information, facilitating transitions of care between providers

ENCOUNTER NOTIFICATION SERVICE (ENS)

- By subscription, a list of patient encounters (i.e. ED and inpatient admits and discharges) are sent to subscribers in real time or in a summary list, using Direct secure messaging
- Recipients choose how often they will be alerted and the workflow used to receive notifications
- Specialty practices must demonstrate ongoing relationship with patient to subscribe

CLINICAL DATA REPOSITORY (CDR)

- Search the CDR for longitudinal clinical information about patients

CLINICAL ACTIVITY HISTORY (CAH) - Available 2017

- Leverages the healthcare insurer to collect recent clinical history about patients
- Document is delivered as a PDF or continuity of care document into electronic health record via Direct

Specialty Care Providers Benefit as HSX Participants

- Receive **encounter notifications** when patients are admitted or discharged from a participating member hospital
- Receive **referrals from peer providers** for new patients via Direct secure messaging
- Acquire the HSX **master provider directory**
- Obtain ability to **communicate electronically with peer providers** through Direct secure messaging
- Access **historical patient data** to inform treatment and care plans
